

# B200PX

20 m

The new GSR B200PX introduces a new concept in the double-articulated up-and-over style of work. While maintaining the same level of rigidity and sturdiness of the traditional GSR/PX range, this new model boosts the power and becomes more compact, offering unrestricted outreach with 300 kg basket capacity.

Simple to use and technologically advanced this machine confirms the high quality standards of the GSR production introducing several elements of innovation in this range.

## NEW B200PX

1. Balanced and controlled swing of the articulations, making operations easier and safer
2. Unrestricted work envelope with 300 kg in the basket
3. Vertical stabilisers for an easy and quick set up
4. 9 m up-and-over reach
5. Intuitive, simple to use controls
6. Simple and accurate devices, matching the highest and latest standards
7. Light-weight booms with a robust, rigid structure
8. Driver friendly, as easy to conduct as an average car
9. Beginner friendly, ideal for self-drive hire

MODEL	Working Height (m)*	Max. Outreach (m)*	Basket Capacity (kg)	Turret Rotation (°)	Basket Rotation (°)	GVW min. (to)*
B200PX	20,0	8,7	300	450	70 + 70	3,5
